In this film, the story of one survivor (built out of several true-life occurrences and experiences) is narrated through spoken word poetry, as she faces day-to-day life with the disfigurement caused by the attack and with painful memories. Hello All

On 11th July 2018, SIMC has organised an event in association with Google and Shethepeople.TV. The agenda and the speakers profile is attached with this mail. The event scheduled at 1:15PM to 3:00PM in the SIU convention center, Lavale.

You are all cordially invited for the event.

DIGITAL TRUST DIALOGUES:

Is a program initiated by Google to be hosted in selected institutes across India. ShethePeople.TV is the partner to this program in taking the program to the audience for whom it matters the most. Your institution is requested to join hands in the initiative for the benefit of your students especially girls.

Agenda: With the Digital Trust Dialogues, Google and ShethePeople.TV aims to sensitize young women, who are at a critical stage of accepting and being empowered by the internet, to the threats they may face online, and equip them with the tools they need to protect themselves online. The program will take the form of panel discussion and workshop, where students can hear from experts and also share their experiences. They will leave the program with more awareness of the threats and how to keep themselves safe online and will spark the dialogue of #DigitalTrust with their peer groups and cohorts. This is an honest attempt to ensure online safety of women and girls who are most prone to the hazards of an open platform.

About Us: ShethePeople.TV is India's biggest digital storytelling for women, dedicated to passionately championing and promoting their journeys. We Empower, Engage and Elevate, connecting them to an amazing network that inspires and grows each others' efforts. The new India is progressively becoming digital where millions of women are getting online with every passing year. They need a platform that relates to them. From leaders, game changers, board members, executives, sportspersons and more, we engage with women who enrich the world with new ideas, innovations, inspiration, and engagement. Founded by award-winning journalist, author, entrepreneur Shaili Chopra, ShethePeople.TV is the voice Indian women today need.

Event Report;

SIMC conducted a virtual version on **29th September, 2020 (6PM-7PM)** with a panel of two speakers representing the LGBTQIA+ community. Our panelists consisted of Nilay Joshi, who is a psychologist and drag performer and Akassh K. Aggarwal, who is a queer activist and jewelry designer to discuss the topic of 'Gender Fluidity' as the umbrella theme of the event. The event design attempted to learn more about the community as well as to take a step towards creating spaces of inclusivity among SIMC students.

The talk was scheduled for an hour wherein the speakers shared their insight on the subject followed by a Q&A session between the panelists and students.

The event had over 100 participants and saw robust interaction from several students which later translated into an extension of half an hour to accommodate all the questions that the students had. The speakers were honest and relatable inducing a sense of comfort towards the students making them share their own stories as well. The talk concluded with everyone learning how difficult it is to be an ally of the LGBTQIA+ community while also highlighting the measures to sensitize and embrace our diversity and unique abilities as individuals.
